Wolfgang Keusgen has been active in the business information industry for more than 20 years. He has worked at the headquarters of Creditreform since 1995 (Verband der Vereine Creditreform, Neuss, Germany). In his various positions, tasks and functions, he has always been concerned with the international activities of Creditreform. In the course of digitalization, his main focus has been on the implementation and expansion of the interface for B2B information through BIGnet. Since 2002 he has been head of international b2b information department and since 2003 also head of the b2b international debt collection department. Moreover, in his function as the German representative within the European Business Register (EBR) was involved in the establishment of the EBR online services. In 2014, Wolfgang Keusgen became responsible for international services of Creditreform and consequently as division manager, member of the board of directors. He has always placed great value on being actively involved in international committees beyond the operative business, notably in his roles as managing director of the umbrella organization 'Creditreform International' and board member of BIGnet.
